

Town Center Projects

Situation:

The decline of commercial corridors in older neighborhoods and the negative impact they have on those communities.

Process:

Worked with Mayor's office and City Council to identify the problem, worked on solution, and secured 12 million in funding for program.

Results:

In the first year of this program, twelve (12) identified corridors received funding to come up with a plan to improve the aesthetics of those corridors. Participation was required from business community and surrounding neighborhoods and city through Department of Public Works, Planning Department and local elected officials
